Applications must be accompanied by the following:

- A. **Two Plot Plans** showing accurate lot delineation, **LOCATION AND DIMENSIONS** of all existing structures, location of proposed structures. Observe all required setbacks and easements.
- B. Two sets of plans, with square footage called out, and specifications, including footing detail, framing detail, electrical detail, plumbing detail, roof detail, truss layout, truss detail and elevations) All pages and copies of plans must have the owner/builder's name and phone number printed on them when submitted. Check with the building official for any other required information. No additions, alteration or modification to approved plans without written approval of the building official
- C. Specific location: Physical address, parcel number (104-xx-xxxx) or legal description.
- **D.** A copy of the **septic permit** when applicable.
- **E. Proof** of property ownership may be required. If the property was acquired within sixty days prior to application for a building permit a copy of the recorded deed or sales transaction is required.

Approval shall normally be given within 14 **working days** after application is received. If there is any delay beyond 15 working days, a letter of explanation shall be sent to the applicant. Upon approval one set of plans shall be returned to the applicant. **This set must be kept on the job site.** Conformance to all Eagar codes is mandatory and enforced.

Inspections are required for all phases of construction.

Required* inspections are:

- a) Footings or foundation before laying any concrete. Footings or foundations will only be approved when clearly and accurately marked property lines and setbacks are provided.
- b) Underground under floor plumbing.
- c) Slab compaction or floor framing before laying concrete or floor sheeting for wood floor system.
- d) Shear wall nailing.
- e) Rough framing, electrical, plumbing and mechanical.
- f) Gypsum nailing.
- g) Final.

Please request all inspections at least 24 hours in advance. For inspections call the Community Development Department at 333-4128 Ext. 230 or Ext. 228 between the hours of: 7:00 AM – 5:30 PM Monday –Thursday

Please include the following information in all inspection requests:

- a) Permit number
- b) Applicant name
- c) Type of inspection
- d) Job location

Permits shall expire after 365 days. Any permit holder may extend the permit beyond 365 days by a written request stating the reasons the project was not completed and approval of the Building Official.

^{*(}Building official may require additional inspections)

- A. **Two Plot Plans** showing accurate lot delineation, **LOCATION AND DIMENSIONS** of all existing structures, location of proposed structures. Observe all required setbacks and easements.
- B. Two sets of plans, with square footage called out, and specifications, including footing detail, framing detail, electrical detail, plumbing detail, roof detail, truss layout, truss detail and elevations) All pages and copies of plans must have the owner/builder's name and phone number printed on them when submitted. Check with the building official for any other required information. No additions, alteration or modification to approved plans without written approval of the building official
- C. Specific location: Physical address, parcel number (104-xx-xxxx) or legal description.
- **D.** A copy of the **septic permit** when applicable.
- **E. Proof** of property ownership may be required. If the property was acquired within sixty days prior to application for a building permit a copy of the recorded deed or sales transaction is required.

Approval shall normally be given within 14 **working days** after application is received. If there is any delay beyond 15 working days, a letter of explanation shall be sent to the applicant. Upon approval one set of plans shall be returned to the applicant. **This set must be kept on the job site.** Conformance to all Eagar codes is mandatory and enforced.

Inspections are required for all phases of construction.

Required* inspections are:

- a) Footings or foundation before laying any concrete. Footings or foundations will only be approved when clearly and accurately marked property lines and setbacks are provided.
- b) Underground under floor plumbing.
- c) Slab compaction or floor framing before laying concrete or floor sheeting for wood floor system.
- d) Shear wall nailing.
- e) Rough framing, electrical, plumbing and mechanical.
- f) Gypsum nailing.
- g) Final.

Please request all inspections at least 24 hours in advance. For inspections call the Community Development Department at 333-4128 Ext. 230 or Ext. 228 between the hours of: 7:00 AM – 5:30 PM Monday –Thursday

Please include the following information in all inspection requests:

- a) Permit number
- b) Applicant name
- c) Type of inspection
- d) Job location

Permits shall expire after 365 days. Any permit holder may extend the permit beyond 365 days by a written request stating the reasons the project was not completed and approval of the Building Official.

^{*(}Building official may require additional inspections)

- A. **Two Plot Plans** showing accurate lot delineation, **LOCATION AND DIMENSIONS** of all existing structures, location of proposed structures. Observe all required setbacks and easements.
- B. Two sets of plans, with square footage called out, and specifications, including footing detail, framing detail, electrical detail, plumbing detail, roof detail, truss layout, truss detail and elevations) All pages and copies of plans must have the owner/builder's name and phone number printed on them when submitted. Check with the building official for any other required information. No additions, alteration or modification to approved plans without written approval of the building official
- C. Specific location: Physical address, parcel number (104-xx-xxxx) or legal description.
- **D.** A copy of the **septic permit** when applicable.
- **E. Proof** of property ownership may be required. If the property was acquired within sixty days prior to application for a building permit a copy of the recorded deed or sales transaction is required.

Approval shall normally be given within 14 **working days** after application is received. If there is any delay beyond 15 working days, a letter of explanation shall be sent to the applicant. Upon approval one set of plans shall be returned to the applicant. **This set must be kept on the job site.** Conformance to all Eagar codes is mandatory and enforced.

Inspections are required for all phases of construction.

Required* inspections are:

- a) Footings or foundation before laying any concrete. Footings or foundations will only be approved when clearly and accurately marked property lines and setbacks are provided.
- b) Underground under floor plumbing.
- c) Slab compaction or floor framing before laying concrete or floor sheeting for wood floor system.
- d) Shear wall nailing.
- e) Rough framing, electrical, plumbing and mechanical.
- f) Gypsum nailing.
- g) Final.

Please request all inspections at least 24 hours in advance. For inspections call the Community Development Department at 333-4128 Ext. 230 or Ext. 228 between the hours of: 7:00 AM – 5:30 PM Monday –Thursday

Please include the following information in all inspection requests:

- a) Permit number
- b) Applicant name
- c) Type of inspection
- d) Job location

Permits shall expire after 365 days. Any permit holder may extend the permit beyond 365 days by a written request stating the reasons the project was not completed and approval of the Building Official.

^{*(}Building official may require additional inspections)
